

Indies Defeat Harrison, 48-33

The Upper Peninsula was invaded again this week. The invading army consisted of friendly hunters, colorfully clad in red and many hued sport garments, bound for the "north country" on an annual deer hunting expedition.

The automobile congestion at the Straits of Mackinac, the transportation bottleneck between the two peninsulas again brought into focus increased demand for some immediate solution to this traffic problem. The 1949 legislature set aside an appropriation of 4 1/2 million dollars for a new ferry boat to speed up transport of tourist and automobiles across the straits. Now difficulties have developed as to suitable dockage at St. Ignace, and additional cost of over a million dollars may have to be incurred before the new boat could be put into practical use upon its completion.

The Grayling Independent Basketball team opened their season by sharpshooting Harrison out of the ball game, 48-33 at the High School Gym last Wednesday night. Led by Ed Smith with 15 points of which ten were scored in the first half, the Indies held the Harrison Rangers in check throughout the whole contest. Roger Giegling added 10 points to the Indies total with Sandy Thompson hitting for 7, Ted Bennett 5, Don Gish 4, Ross Thompson 3 and Carl Hanson and Chuck Feldhauser adding a field goal each.

The Rangers were led by Legge with 11 points and Buckholz with 9. Grayling grabbed a 19 to 7 lead by the end of the first quarter and still held a 25 to 16 edge at half time. At the start of the third quarter, the Rangers spurred and began to draw closer but the Indies with some hot basket shooting pulled out in front. With the game in its final minutes the Indies took the floor and played the Rangers even up.

Invariably the Straits bridge is revived during an election campaign and 1950 may see new political agitation in favor of a bridge or tunnel to be financed in part by government money of self-liquidating bonds.

The Upper Peninsula always welcomes the arrival of sportsmen and summer tourists. Recreation has become big business in this area stretching more than 50 miles from Ironwood at the west to Sault Ste. Marie at the east. To the north of the "Sault" is the vast wilderness in Canada.

The Upper Peninsula is the region of by-gone glory in lumbering and a recent decline in copper and iron mining. In the "copper country" the copper mines have reached depths at which copper mining can be maintained only by very protective high price, such as prevailed during wars, or through federal subsidy. Michigan copper mines cannot compete profitably with low-priced copper from other regions of the United States and the world.

As for the future of Michigan iron mines a traveler in the Lake Superior region is always impressed with the vast potentialities of low-grade iron ore. While reserves of high-grade ore are sufficiently adequate to accommodate the needs of steel makers for many years to come the four billion four hundred million capital investment of the Great Lakes steel industry is such that they are looking ahead for a substitute supply of ore when present high-grade is depleted.

Demand of World War I and World War II depleted the Michigan and Minnesota ranges of many millions of tons of high-grade iron ore.

A recent issue of Business Week stated that production in the Michigan Range has been slipping since 1942 that the lower part of the Menominee Range which underlies the Michigan-Wisconsin line, is well exhausted, and the Marquette Range contains only underground ore of which production is needed to operate economically. Business Week puts an expectancy on Mesabi Range of 27 years;quette Range, 25; Menominee Range, 30; and the Gogebic Range, 40 years.

Utilization of the low-grade iron ore is the future hope of the Michigan iron country.

Revival of lumbering in Michigan is also a favorable possibility. More than 300 houses pre-cut from lumber, were fabricated and last year by a single cabin company in St. Ignace. Of the 36 million acres of land in Michigan, 10 million are under forest cover. The state has 20 million acres of land which are unquestionably land to be used for anything else but growing trees. This fits well with the north Michigan area now a scene of the perennial deer hunting season.

The deer hunter is more than a home visitor. He is the symbol of the growing recreational industry in Michigan's North Country.

National Guard Sets New Strength Record

The Michigan National Guard ranked the greatest weekly gain in its current recruiting campaign this week with 197 new enlistments to establish an all-time strength record of 10,509, according to reports received by the Adjutant General of Michigan.

The current "Get in the Guard" recruiting campaign will end November 19. Michigan units have already reported 922 enlistments toward their goal of 1,000.

Detroit's Detachment A 227th Air Service Group, reported the outstanding progress of the week with 12 new enlistments, closely followed by 48th Signal Company at Ypsilanti with 11 enlistments.

Detroit Chiropractor Opens Office Here

Dr. J. C. Lyons, chiropractor, who has practiced in the City of Detroit for several years, announced this week the opening of his office in Grayling at 604 Cedar Street.

Dr. Lyons who is a graduate of the Palmer School of Chiropractic, is moving here with his family on November 22.

1950 License Plates On Sale December 1

Secretary of State Fred M. Alger, Jr., announced this week that 1950 automobile license plates will go on sale in the department's 208 branches on December 1.

Prepared plate application forms were mailed early this month to Michiganans 2,111,000 motor vehicle owners, Secretary Alger stated. He added that the department had no facilities to issue plates by mail and that they may only be obtained at the branch offices.

Personal checks are not acceptable for auto plates unless they are certified, Secretary Alger said. 1949 plates expire on the last day of February, 1950 and in order to avoid the last minute rush, motorists are urged to obtain their plates from their branch office as soon as possible after December 1.

1949-50 Viking Cage Schedule

- Nov. 22—At Mancelona.
- Dec. 2—Boys City here.
- Dec. 9—East Jordan here.
- Dec. 13—At Roscommon.
- Dec. 16—At Pellston.
- Dec. 28, 29—Christmas tourney here with Kalkaska, Mancelona, Roscommon and Grayling playing.
- Jan. 6—Charlevoix here.
- Jan. 10—Roscommon here.
- Jan. 13—Gaylord here.
- Jan. 20—Mancelona here.
- Jan. 24—Bay City Northeastern School of Commerce here.
- Jan. 27—At East Jordan.
- Jan. 31—At Boys City.
- Feb. 3—Harbor Springs here.
- Feb. 7—Houghton Lake here.
- Feb. 17—At Charlevoix.
- Feb. 24—At Gaylord.

This 18-game basketball schedule set for the 1949-50 season is described by Coach Bruch Smith as "tough as could be picked." The Viking squad will have many a battle on their hands before the schedule is completed.

Harbor Springs and Pellston are held to one game on the schedule as they appear to have weaker teams in the conference, Coach Smith said, and also due to the long trips which are required when the Vikings travel to those two cities.

Houghton Lake and Bay City Northeastern School of Commerce were added to fill out the schedule and early reports say the Bob Cats from Houghton Lake and the Nesco team of Bay City will be tops and tough to handle.

The Christmas tourney will be something new to Grayling, but, it has been in practice among other high schools for some time. It will give the four school squads some action instead of a long lay-off from December 18 until January 6 which sometimes doesn't do a team any good.

TB Christmas Seals Due On November 21

Life-saving TB Christmas Seals will virtually "wing their way" into homes of Grayling and Crawford County on November 21 as the Michigan Tuberculosis Association opens the 1949 Christmas Seal Sale.

The new seal, drawn by the youthful refugee artist, Herbert Meyers, pictures a "dove of hope" carrying a sprig of holly. Of the funds raised, 95% remains in Michigan for community TB control programs. The National Tuberculosis Association in New York headquarters for TB research projects, receives the other 5%.

"Since 1908, tuberculosis Christmas Seal funds have helped reduce Michigan's death toll by 75%," Judge Herman Dehnke, president of the Michigan Tuberculosis Association declared. "In this saving of lives, we can see thousands of Michigan homes spared the shattering loss of a member from the family circle; we can see healthy children, protected from the blight that once numbered their days and we can see hundreds of people who have been rescued from this insidious disease against what once seemed to be impossible odds."

"But today, tuberculosis still remains the most deadly 'catching' disease in the state of Michigan, killing 1,561 people last year—more than all other communicable diseases combined," he declared. "And new cases of tuberculosis, more than 6,000 in 1948, are not showing a downward trend."

"The people of Michigan, the people of Grayling and Crawford County can make possible continued advance against this disease through a generous purchase of tuberculosis Christmas Seals. It is one generosity of the Christmas season, one 'Merry Christmas' that helps insure healthier communities and growing protection for our children and ourselves against TB."—Buy Christmas Seals!

2 Vikings On All Conference

Two Grayling High Vikings were named on the Northern Class C All-Conference football team which was released this week. Bill Worden who was named all-conference back last year in his sophomore year repeated while Guard Victor Papendick, a senior was also named to the mythical eleven.

No Vikings were named to the second team but Grayling and Bob Rasmussen was given honorable mention of the conference squad.

Others on the first eleven were: ends-Fairbanks, Charlevoix and Duffield, Gaylord; Tackles-Chanda, East Jordan and Lampkin, Harbor Springs; Guard-Bowers, Boyne City; Center-Shawnesse, Harbor Springs; Backs-Cutler, East Jordan; Barber, Charlevoix and Shaler, Boyne City.

4-H Club Members Win Honors at Potato Show

The Hummel boys from the Maple Forest 4-H Club won honors at the Northern Michigan Potato and Apple Show in Traverse City, November 8th.

Jack Hummel tied for second in the judging contest with a score of 436.

In the exhibits of 32 tubers Rolly Hummel won first place in Sebago, Stanley Hummel, Jr., fourth place in Sebago and Jack Hummel first place in Katahdins. In prize money the boys won a total of \$23.

Crawford County has a right to be proud of these boys. Exhibits of the quality they showed, does a lot to let other people know that Crawford County has some good farmers as well as good tourists and resort areas.

Honor Retired NYC Men

At 6:30 on the evening of November 13th the New York Central Railroad Maintenance of Way Department Employees of the Northern Territory of the Michigan Division held their annual dinner honoring their fellow workers who had retired during the year. The celebration was held at the John Brady cabin at Lake Margrethe.

Those honored were, Section Foreman J. Brady of Grayling with 39 years of service; W. Wilkes of Mackinaw City with 47 years of service; and M. Stoop of Saginaw with 38 years of service. D. Wheeler, Locomotive Department Employee with 33 years of service; C. V. Coffey, assistant division engineer of Bay City, was toastmaster and conducted the party. E. G. Brisbin, division engineer of Jackson gave a nice talk to the men.

Some forty fellow employees were present to see Carl Richardson, supervisor of track, present handsome bill folds containing tokens of best wishes, to each of these gentlemen.

MISS ODIE SHEEHY PASSES ON

Miss Odie Elizabeth Sheehy, a wellknown resident of Grayling for close to half a century passed away at Mercy Hospital at 1 o'clock Tuesday morning, November 8. Although her illness was pronounced incurable, her passing came as an unexpected shock to her family and friends. She had been ill about six weeks and entered the hospital on October 13th, and on the 31st underwent surgery, when it was discovered she was suffering with that dreaded disease cancer. She was given tender care by everyone at the hospital and had every comfort possible during her remaining days, and having received the last rites of her church, passed peacefully away.

She was known as Odie to young and old alike and although she had grown mature she always seemed just a little girl to everybody. Born in Waters, Michigan, July 20, 1895, she was the youngest daughter of Michael John and Elizabeth Jane Sheehy. The family resided in Waters until 1900, when they came to Grayling when Odie entered school with Miss Josephine Russell as her first teacher. As there was no Catholic church in Waters her first religious training came at St. Mary's Church here where she received her first Holy Communion, was confirmed and had worshiped through the years. She had been very active in church work and was a devoted member of St. Mary's Altar Society from the time she was old enough to belong.

There is no denying that her entire life was spent in unselfish devotion to her family and others. She had never worked outside the family home, but her life was well spent and a busy one. As her parents grew old she took over the responsibilities of the home and cared for them tenderly and well. She was very devoted to children and dearly loved two nephews and a niece whom she had helped to care for and who had brought her a lot of happiness. During her girlhood and through the years she and her sister, Nola, who seemed inseparable had the same friends and many of these friendships have remained. So summing it up Odie will always be remembered by her family and friends for her patience, kindness and goodness.

Funeral services were held at St. Mary's Church at 10 o'clock Friday morning with a Requiem High Mass sung beautifully by the church choir. Rev. Fr. Breitenstein celebrated the Mass and in his sermon paid a beautiful tribute to the deceased, which seemed to fit perfectly with the sweet, wholesome life she had led. Interment was in Elmwood Cemetery beside the remains of her late parents and acting as pallbearers were Leland Smock and son Don, Clarence Robertson, Ted Cahalan, Wesley LaGrow and William LaRush.

The Altar Society attended the services in a body, forming a guard of honor as the cortege entered the church.

With the family during their sorrow besides their Grayling friends were old friends from away, who included Mr. and Mrs. Howard Scarlett, Mr. and Mrs. J. H. Patterson, Mrs. Leo Jeambert, Mr. and Mrs. Frank Woodruff, Detroit; Mr. and Mrs. Frank C. Barney, Lewis; Mrs. Walter J. Nadeau and Miss Grace Philpotts, Pinconning; Mrs. William Chase and Mrs. James Saylor, Waterford; Miss Selena Barber, Cheboygan; Mr. and Mrs. Francis Gallagher, Mrs. John Mallingier, Higgins Lake. Others who called were Mrs. Frank Noa, Gaylord; Mrs. Oscar Smock and Mrs. Harry Horton, Mrs. Abbie Madill, Frederic.

Surviving the deceased are one sister, Mrs. Wilfred Laurant, and two brothers, Curry and Reginald J., her sister-in-law, Alma Sheehy, brother-in-law, Wilfred Laurant, and nephews, Michel and Mark Sheehy.

Highway Department Now Faces Winter Maintenance Schedule

The merry jingle of sleigh-bells and the rhythmic clatter of old Dobbin's hooves on frozen roads were music to grandpa's ears but to the Highway Department Maintenance engineers today, winter means the tremendous task of keeping trunk lines open so that highway traffic which is the life blood of the state, may flow in a normal and safe manner.

"The magnitude of what highway maintenance men and machines bucked last year in order to keep the highways open to traffic 24 hours a day and every day, is illustrated by the fact that a maximum of 156 inches of snow fell in Michigan last winter and the thermometer on one occasion dipped to 46 degrees below zero at Watersmeet in Gogebic County," Highway Commissioner Charles M. Ziegler stated. Even under these conditions, winter maintenance of more than 9,500 miles of Michigan roads and streets, including snow removal, ice control and snow fence cost less than \$1,000,000 during the last fiscal year.

Winter highway maintenance is a year-around job in Michigan. In late spring, when all threat of winters snow has passed, all snow and ice removal equipment is inspected and overhauled in state and county garages and put in first class condition in readiness for use the following winter. V-plows, one-way plows and underbody blades must be cleaned, repaired and painted. Automatic sanders must be reconditioned and snow fence taken down renovated and stored.

Summer finds maintenance crews stock piling sand, sodium chloride and calcium chloride at strategic locations so when winter's first snow and ice arrive they will be prepared to eliminate these hazards at a moment's notice. With the coming of fall, maintenance crews are set to work erecting 300,000 feet of snow fence

along state trunklines and preparation of heavy equipment to fight winter's onslaught.

The Michigan State Highway Department was one of the pioneers in the use of living snow fence and now over 150 miles of state trunkline are protected from drifting snow by from three to five rows of small pine trees planted parallel to the highway and some 75 feet back from the roadway. Arranged informally in front of these rows of living snow fence are additional plantings of pines and groupings of shrubs and other trees. Such snow fences enhance the beauty of the roadside as well as shield the roadway from drifting snow.

According to Commissioner Ziegler, this winter the Michigan State Highway Department will continue its experiments with paper snow fence, also the Department will test the value of various fabric nettings as snow breaks for the trunklines.

Throughout the winter adverse highway conditions will be reported daily to the press, radio and State Police by the Michigan State Highway Department. A general summary of state-wide conditions will be compiled around 9 A. M. daily in the Lansing office of the Highway Department from reports received by phone from the Department's district offices throughout the state. At 9:30 each morning, the State Police radio station in East Lansing will broadcast this report of conditions on all state trunklines to their various posts throughout the state, who in turn will make this information available to the public by calling the posts, Highway Department district offices or county road commission offices throughout the state.

SPEAK VOWS IN OHIO

Miss Marion DuBois and Mr. Thomas R. Welsh were united in marriage Thursday afternoon, November 19, 1949 at Napoleon, Ohio.

The bride is the daughter of Mr. and Mrs. James DuBois of Vassar, Michigan. The groom's parents are Mr. and Mrs. Fred R. Welsh of this city.

On their return from an eastern wedding trip the newlyweds will reside at Lake Margrethe.

Kiwanis Club

NOTES

Over \$100 was taken in by the Grayling Kiwanis 'old newsboys' in a special sale of the Crawford Avalanche on Monday.

This money will go into the Cub's underprivileged children's fund for Christmas gifts to the needy and to the school milk fund.

About 500 copies of the special deer hunter's edition were sold and it is planned to sell the papers again this Saturday in an effort to build the fund up a little higher.

Plans are already underway for a big "old newsboys sale" next hunting season with a much improved edition for the deer hunters.

Youth Speaker At Free Methodist Church

Rev. Charles Kerstly, the Eastern Director of the Young People's Missionary Society of the Free Methodist Church will speak at the local church on Thursday, November 17 at 7:30 P. M.

Rev. Kerstly is a young man and understands the problems of youth and is an enthusiastic speaker. The Church extends a cordial welcome to the public.

MILLIONS WILL RALLY ... Elizabeth Gurley Flynn, only member of Communist party's ruling board still at liberty, gives her views to thousands on the conviction of the 11 leaders. "Millions will rally to the cause," she said, condemning the conviction of the eleven as a "Hitler-like decision." She blamed the thing on President Truman, asserting that "in its attempt to start war with Russia, the administration is trying to outlaw the Communist party, because it represents a large segment of the population which is for peace."

Mr. and Mrs. A. L. Hunt and daughter, Beverly, are here for deer season. Beverly returned to Detroit Sunday for her work.

Philip Duncley, Bernard Hinkle, Lowell and Murray Bind-schatel are in Frederic for deer season.

Mrs. Oscar Burke entertained her sister from Saginaw over the week end.

Harry Horton was home visiting his wife for the week end. Floyd Hoag of St. Johns, Michigan visited his cousin, Bessie Cook.

George Horton is in Big Bay, Michigan, visiting his son and family and hunting.

Jack, Gene and Bob Kaiser are here visiting their parents and sister, Mr. and Mrs. Al Kaiser and Virginia.

Mr. and Mrs. Frank Madill of Eaton Rapids, Michigan are visiting their families, the Charles Madills and the Charles Posts. Frank returned to Eaton Rapids to teach and Caroline is here helping her mother with hunters.

There are quite a few hunters around Frederic for the deer season. Harry Burdick of VanDyke, Ed Burdick of Detroit, son and uncle of Morris Burdick of the Sand Hill are here for deer season.

Jerry Hyde of Flint came up for a few days deer hunting and to visit his brother-in-law, Ken Burdick.

Lee Crandal and sons of Pontiac are here visiting old friends and hunting.

The snow Monday afternoon was greeted with a smile. More like hunting season.

We hear wedding bells this week at the Murphy home.

READ A & P's LOW FOOD PRICES

Customers' Corner

Why will food prices go up if the anti-trust lawyers win their suit to put A&P out of business?

Here is just one of a number of reasons:

We manufacture many of the quality foods we sell in our stores, such as Bokar, Red Circle and Eight O'Clock Coffees, Ann Page Foods, White House Milk and many others.

Because this saves us money we are able to pass along these savings to our customers in the form of lower prices.

The anti-trust lawyers have asked the court to order us to get rid of our manufacturing facilities, which would put an end to all these savings.

Make no mistake about it. If the anti-trust lawyers succeed in putting A&P out of business, you will find your food bill is higher.

What's Happened To Grayling?

Yes what has happened to Grayling?—You hear this question not only among our town's citizens, but, among people living in the larger cities to the south 100 and 150 miles.

As an old-time resident put it the other night, "At one time Grayling was the best town on the whole Mackinaw Division. More town spirit and a better town than any of them, even Cheboygan. But it's not any more."

Grayling just doesn't seem to be making it's way back up the hill since the downgrade caused by the war. Just what the main reasons are no one seems to know.

Some folks, local people, too, say that Grayling citizens are too smug. To caught up in their affairs to worry about what happens to the town. Could be. Something to think about any way.

The leadership isn't what it was at one time, another will tell you and it again could be the reason or maybe partly so.

We have lived here just a little over five years, coming here during the war. All we knew of the old Grayling before the conflict is the memory of a few week end flying visits. From this very small and very fleeting glance, we should say that one of the big troubles today is the lack of co-operation between the people of Grayling. When one organization or group attempts to put over something it behooves all of us to help to the best of our ability. Letting the other fellow fight the current alone isn't right. Not if you want a good town—a town like Grayling used to be.—R. W. S.

State Trunk Line Highway 14 will soon be but a memory in the minds of the people of the state. Trunk line US-27 seems destined to become Michigan's greatest highway. A party of surveyors with a Mr. Davis as chief arrived at Michelson Saturday for the purpose of surveying the route for the relocation of M-14 which trunk line is now to become US-27.

A pioneer is the fellow who can remember when forty dollars a month was considered a white collar job.

Crawford County Grange No. 934 has been organized with 38 charter members. The officers are old pioneers of the county and have taken this thing up for some time and all at last their prayers have been answered. The officers are as follows: Master, E. Ostrander; secretary, John A. Love; treasurer, F. F. Hoessli; overseer, A. B. Failing; lecturer, C. Ingerson; steward, E. Ostrander; assistant steward, A. Funck; lady assistant steward, C. Feldhauser; gatekeeper, James Sullivan; Ceres, Mrs. S. Funck; Pomona, Dora Hoessli; Flora, Martha Bebb.

Fred Aeble, Jr. of Bay City is visiting at the home of Mr. and Mrs. Ernest Borchers and also other relatives in Grayling.

Walter and Burton Shaw of Detroit are here for the deer hunting season and visiting their parents, Mr. and Mrs. Grant Shaw.

Mr. and Mrs. Earl Madsen and little daughter, June Patricia, of Royal Oak are spending a couple of weeks here visiting the former's parents, and Mrs. Madsen's parents, Mr. and Mrs. Arthur E. Wakeley of Sigbee. Mrs. Madsen will be remembered as Miss Alice Wakeley.

H. A. Clemetsen of Alpena is in Grayling this week enjoying deer hunting in company with some

local friends.

Word has been received of the birth of a daughter, Barbara Mae, on Sunday, November 7, to Mr. and Mrs. William Eastman of Detroit. Mr. Eastman was a former

resident of Grayling.

Mr. and Mrs. James Husted are happy over the arrival of a daughter at their home Wednesday, November 10.

Rev. Kjolhede left Monday for Des Moines, Iowa, to attend the silver wedding anniversary celebration of his daughter and her

husband, Rev. and Mrs. S. D. Rodholm.

Among the local nimrods who have succeeded in filling the deer licenses in the wilds of Crawford County are Carl Doroh George Bielski, Walter Nadeau, Adolph Peterson, Ora Ingalls, Clyde Peterson, Esmond Houghton, Fred Bromwell, Peter Failing, Walter

Hemmington, Frank Rood and Carroll Vincent.

What's YOUR
price tag ON
happiness?

The comfort that's found in all-coil springs, a husky, steady-traveling understructure, cushions that are deep and soft and wide enough to let you spread yourself a bit.

Even that extra swelling of the chest that comes from owning a car you know everyone respects and admires.

In a word—your happiness. It's never out of our mind in planning this car—nor in making very sure each dollar of cost gives you the greatest possible benefit.

That's why we rather proudly ask you to go see—and try—this Buick SPECIAL. It's priced like a six, in spite of the fact that like all Buicks, it's a big-powered Fireball valve-in-head straight-eight.

And we honestly believe that it puts a lower price tag on your motoring happiness than any other car you can buy today! See your Buick dealer and find out about that.

JUST what do you see in this handsome, tidy-sized Buick SPECIAL pictured here?

The smartest bit of automobile styling on the road today? The standout beauty of tapering fenders—the sturdy protection of a wholly new front-end design?

The prestige that's in the Buick name—the solid, road-wise steadiness Buick has always stood for?

Your chance to get in on the perfect smoothness of Dynaflo Drive—this being the lowest-priced car on which that sensational new transmission is available?

Optional at extra cost.

They're all there, every one of those things. And for a good reason that may go a bit beyond the usual idea in designing an automobile.

For, a long while ago, we graduated from the idea that a motorcar is merely a means of getting about.

The way you travel is pretty important too. The lift that's yours in knowing there's no prettier picture anywhere on the highways. The "kick" there is in a power plant that's lively and eager and always ready to get in on the fun.

When better automobiles
are built
BUICK will build them

ALL LUMBER SALES

BY PETE

Well, when you read this I'll be somewhere in North Michigan deer hunting. Here's a story written by little Nancy Johnson of Minneapolis. Her grandfather was a lumberjack, poor kid.

My name is Nancy Johnson, age 11, 6th grade. I'm writing on my mother's typewriter, as she is away from home and I am taking care of Granddad. He used to be a Lumber Jack, and he's going to take me to a show tonight if I write this about his first Ford car just the way he wants it, so from now on the words are his, not mine. "Jeepers" (Nancy).

I am Ole Yonson. Ay coom Michigan lummaryods many yar ago wen pine she stand tall and whiskey she run red. I work for Louie Sands, and take mine own advice and safe my money. Ay drink some, and fight some, as who didn't, but Ay safe my money for rainy day. Ay haf son in Minneapolis who is M. D. Doctor, and coom 1917, ay tink to go visit him, and go in style mit new ford car rich tam-goot salesman sell me in Detroit. Salesman he goot faller, he take my money an gift me out of town on best tam ford she ever build. She ride yust lac big pine log down river, no pickup, no peavy. Ay haf fun watching horse teams git out of my way fast. Not menny cars on road till Ay coom Chicago, den all hell she to pay. I dont want for to stop there, but ay kill my motor on busy road in Chicago loop an haf to git out an twist-er-tail. Traffic she block oop in no time for haf a mile. Horns tootle an men cuss me an my car. Mostly truckdrivers. They call my car a Lizzy and tell me git off the street. Ay am doing bes ay can, but ay forgit an leave-er in gear wen I twist-er-tail and she try to run over me. They laf at me, and put hans on my car to push-er off the street. Ay tell-

em keep tam dirty hans off my car, and they start to push me too. Vell, you know vat happen. Ay am Michigan lummaryack. Ay take off my coat. Cops coom pretty soon pick oop truck drivers from all over street and load them in big black hearses. Me too, and take us to headquarter camp var I meet Big Cheese who is nice faller. He look all them truck drivers and laf.

He act yust lac he know me all hees life. Wen I tell what happen he laf some more an shake my han. Git mine from Ole, Police escort out of town, he say to cops, Great Scott, you remember vat happen once before in Chicago? He say, "and that was only one cow kick over a lantern. You got here, one Michigan lummaryack!" (Ugh). "Nancy."

SHORT STORIES

On Business

By Richard Hill Wilkinson

WHEN DOUG PRINGLE signed a contract to illustrate stories for Midweek Fiction magazine at a figure that surpassed any amount he had earned in the rather uncertain past, he felt that he had reached a milestone in his career.

"Now," he declared to his wife, Aggie, "we can begin to have a few of the things we've been doing without for the past seven years."

"And the first thing we'll have," Aggie told him, "will be a nice little camp on Spur Lake where you can work amid surroundings that you love and where, accordingly, things will be easier for both of us."

"The camp," he told her

gravely, "will come immediately after Mrs. Pringle has replenished her wardrobe."

It turned out that Aggie could have her new clothes and they could purchase the camp and not feel too extravagant. They went up to Spur Lake the following week and talked to a real estate agent. They had been there many times before. They knew just what they wanted for a camp site and where they wanted it. That afternoon the real estate agent made the easiest sale he'd transacted in years.

The Pringles sat down and made up a schedule of guests for week-ends. They wanted to have company. This was the first time they had lived in a place big enough to hold guests conveniently. They were eager to share their possession.

And so two weeks later the first guests arrived. Doug and Aggie slept in the work room, and everything was fine. All hands had a swell time. The guests departed in high enthusiasm. In fact, their enthusiasm apparently bubbled over, for in the middle of the following week some friends dropped in who had "heard so much about the cute little camp the Pringles had bought." Aggie and Doug asked them to stay over night and they did.

The summer hadn't progressed very far when Doug decided they were going to turn the present workshop into another bedroom.

"I'll build a studio for myself down by the lake. It seems there are a lot of people who are just dying to see our cute little camp," Aggie said.

"Sure," Doug agreed. So the Pringles built a studio for Doug, a rather attractive building that added to the general outlay. Gosh! After all, I'm a working man."

It's a given guests.

"Now," he declared to his wife, Aggie, "we can begin to have a few of the things we've been doing without for the past seven years."

He moved into it with all his equipment—and the next week-end Aggie moved in with him.

In August the Hollands arrived. The Hollands were bored. Steve Holland belonged to Doug's golf club. They were friends of some of the Pringles' friends.

HOWEVER, they arrived and Mrs. Holland spied the studio and wanted to look at it. Aggie smiled wearily. She was getting used to this sort of thing. She led them down to Doug's workshop and Mrs. Holland peeked inside.

"Why, there's no one there!" she exclaimed.

Aggie nodded. "Doug's away. On business."

The Hollands were disappointed at not being able to see the artist at work, but there was nothing they could do about it. They departed shortly after.

At dinner time Doug came home. He was in high spirits.

"I've found just the place I wanted. A room right in the heart of Goodwin's business district. Plenty of noise and dust—a place where a man can do a real day's work without being bothered."

Aggie smiled fondly.

"The Brants are arriving tomorrow."

"Swell!" said Doug. "Show them the works and tell them I'm away—on business."

Red Cross Hospital Workers
Help Speed Patient Recovery

The job of rebuilding sick bodies and minds of servicemen in military hospitals and restoring them to useful life is carried forward by a team—doctors, nurses, and Red Cross workers. The Red Cross worker may be a medical or psychiatric social worker, a recreation specialist, or a combination of them assisted by a Gray Lady.

Military physicians and nurses find that restoring the health of a sick man requires much more than medicine and food. The will to live and the will to do things must be revived before medical treatment can get in its beneficial work. That's where the Red Cross enters the picture.

A young soldier, only 23, was injured in an accident at a munitions proving ground. Half of his face and neck were blown away. Painracked and frightened, he had little taste for ordinary hospital recreation. He loved music, though, so the recreation worker brought to his bedside a radio phonograph and then, by mere chance, found she could satisfy a greater longing. The boy revealed that he wanted to write to his young wife those tender, personal things that he hesitated to dictate.

Under federal statute and regulations of the Army, the Navy, and the Air Force, the American Red Cross furnishes volunteer aid to the sick and wounded of the armed forces and acts in matter of voluntary relief and as a medium of communication between the people of the United States and their armed forces.

Red Cross hospital workers assist medical officers with welfare and recreation programs for military patients.

A recording machine was brought to his bedside, and he found the words to tell his longings to his distant wife. It wasn't easy because his injury had damaged his vocal chords and articulation was difficult. But after patient practice with the hospital worker, he finally poured out his heart to the record and sent it off to his wife.

To the arthritic, the tubercular, the rheumatic heart sufferer, doomed to long periods of bed care, the recreational services provided by Red Cross ease their burden of restlessness and discouragement. Nearby chapters in cooperation with other local agencies bring into the hospitals young people from the nearby communities, women who serve as hostesses for parties, young people who dance and play games, all reminding the sick soldier that he is not forgotten by those he served.

High School Cage Rules
Changed Some For New Season

The Michigan High School Athletic Association announces several changes in rules for high school basketball following a meeting of the State Basketball Rules Committee in Lansing recently.

The change in rules are pointed out in an effort to let the spectator understand why a referee calls certain instances different this year than during the past season.

Rule number one of section 10 changes the color of the basketball ring assembly to a bright orange shade. The ring, ring braces and plate holding the assembly to the backboard are to be repainted this year to this color. It was the feeling of the Rules Committee that the contrasting color would aid in better shooting by players it was said.

Rule 4 of section 2 and Rule 8 of sections 5 and 6 are amended that after the fourth quarter of official's time out or during extra periods of play because of a tie, the ball becomes dead after each free throw and the throwing team retains possession of the ball for a throw in from out of bounds at mid court. During this type of free throw players are not to line up along the free throw lane.

The most important change of

all as far as spectators are concerned is in Rule 4, Section 10, which provides that an official is to call a held ball "when a closely guarded player is holding the ball in his front court and is not making a reasonable effort to dribble, pass, or throw for a goal but is apparently trying to consume time."

Rule 6 of Section 2 is changed so that at the beginning of each quarter, half or extra period the ball shall be put into play in the

center circle by a jump between any two opponents.

Rule 6 of Section 3 is changed so that in the case of a held ball or a ball goes out, the players designated to jump must do so unless injured or disqualified. If injury or disqualification to a player takes him from the jump play, his substitute must jump.

Lytle-Billsby brought in a 215 and a 205 for second high in the

single department and added a third game of 156 to take second in series too with a 578. Ed Funk with 209 was next in line in the single game department with Duke Dudewicz next in line in series with a 548.

Don Bishop still leads the average list with 174 and 15 extra pins. Matt Bidvia is second with 174 and Al Cherven third with 172. Bob Dean holds down fourth with 171. Bob Bennett is fifth with 170 and 16 extra pins. Bud Gruel is sixth with 170 pins even and George Quinn is seventh with 169 and 5 extra pins. Jack Wade is eighth with 169 and 2 extra pins. Sam Rasmussen holds down ninth of 168 and 15 extra pins while Joe Legge is tenth also with 168 but only 5 extra pins.

Detroit Is "Enemy" Target
For "Operation Foresight II"

Top planning officers at Fifth Army Headquarters in Chicago were informed that for purposes of conducting "Operation Foresight II," intelligence officers have learned that an "enemy" is planning to conduct an airborne invasion of Detroit, Michigan.

Lt. General Stephen J. Chamberlain, Fifth Army Commander, in

making the announcement, explained that "Detroit has been chosen as the focal point of the paper problem solely because it is a representative midwest industrial center and not, in any sense, because we regard it as a more likely or more vulnerable possible wartime enemy target than other cities."

Emphasis in this year's two-day strategy session is being centered on the formulation of plans and operations to carry out a large-scale defensive exercise against airborne "enemy" troops. Two one-hour talks on civil defense and atomic energy will be presented by representatives from the Department of Defense in Washington, D. C.

The mass air attack on Detroit is expected to originate from aggressor-held air bases which enable him to launch one-way suicide bombing and air-borne infantry assaults.

The hypothetical plan describes the out break of uprisings and acts of sabotage throughout the country, varying from individual acts by saboteurs to well-planned attacks on Ground Forces and Air Force installations and resulting in widespread destruction.

By November 12, aggressor forces have succeeded in overcoming all local resistance and are reported to have consolidated their hold on Detroit. Power plants and communication centers have been seized and are being operated by the "enemy."

This is the situation confronting 250 staff officers from National Guard and Reserve organizations in Fifth Army's area when they move into Fort Sheridan, Illinois, at "H-hour," November 12 and co-ordinate plans for an all-out counterattack on the aggressor.

The present day craze of eco-
nomic security for the individual,
as typified by the \$100 month pen-
sion plan granted recently by the
Ford Motor Company of Dearborn,
appears to be bringing further eco-
nomic insecurity to employees of
small business firms.

"Little business" is watching the
outcome of the United States
Steel Corporation CIO tug-of-war
over who is to pay for pensions
and insurance.

Already the Bethlehem Steel
Corporation has signed a contract
whereby its 80,000 employees will
be eligible for noncontributory
pensions of a minimum of \$100 a
month after 25 years of service.
This will cost the company 12 1/2
cents an hour per employee. As
to social insurance, the company
and employees will pay 2 1/2 cents
an hour each in sharing the cost.

What will other Michigan auto-
mobile firms do? A reporter of
the New York Times, writing a
story from Flint, states: "It is
generally agreed that the pension
plan adopted by Ford will have to
be adopted by other companies."
The cost of such retirement in-
come, if paid largely by the em-
ployer will put new costs upon the
automobile. All costs must be
paid by the consumer—if at all.

It is interesting to note that the
Ford-Bethlehem contracts for pen-
sions includes federal social se-
curity benefits. These are fi-
nanced equally by the employer
and employee. If the Ford-Beth-
lehem idea becomes a general
pattern of "big business," it is easy
to see that the inevitable effect
will be to encourage action by
Congress to have more retirement
benefits financed by social securi-
ty and thus, in part, by the

worker.

Whereas many industrial lead-
ers have been traditionally cool to
the principle of federal social se-
curity, as contrasted to privately-
financed social security with or
without employee contributions,
there is now a good chance that
many of these persons will favor
increased federal benefits. Such
action would reduce the gap be-
tween security benefits and \$100
a month. It would have the in-
direct effect of saving money for
the employer.

If "big business" lines up for
pensions and social insurance
benefits, what will "little busi-
ness" do about it?

The Detroit Free Press com-
mented editorially the other day:
"With new demands added to high
wages scales and tremendous tax
obligations, it will not be surpris-
ing if many small firms either are
forced out of business, or into
mergers—a tendency toward big-
ness against which the Truman
administration screams."

What affects small firms af-
fects many, many Americans.

Last year (1948) about 35 per-
cent of all workers were employ-
ed by companies having five or
less employees. Almost two-
thirds worked for firms of less
than 300 employees.

The "compulsory contribution"
(the government's phrase for pay-
roll tax—would go from 1 to 1 1/2
percent on Jan. 1, 1950; 2 per cent
by 1951; 2 1/2 per cent by 1950, and
finally up to 3 1/2 per cent by 1970.
Washington observers agree that
the Senate is "certain" to act favor-
ably in 1950 (an election year)
on upward revision of social se-
curity benefits, now admittedly
out of balance with today's inflated
dollar.

The coming economic squeeze on
"little business" illustrates why
many thoughtful business men are
genuinely concerned over the
present steady drift toward the
welfare state. If farmers are
guaranteed fair prices for their
crops, if workers are guaranteed
economic security from cradle to
grave, what will be the final out-
come?

And if to oppose such new
Utopian protection for the masses
is to qualify a critic for the odious
label of a "reactionary," then the
business man may arrive at the
philosophical fatalism recently ex-
pressed in "Trends," a journal of
the National Association of Manu-
facturers:

"There has never in past history
been any state that completely
controlled its citizens as completely
as they are controlled in the Soviet
Republic or even in modern Eng-
land.

"It may be that the present
tendencies toward centralization
are too strong to be resisted until
they have led to disaster, and that
as happened in the fifth century,
the whole system must break down
with all the inevitable results of
anarchy and poverty before hu-
man beings can again acquire that
degree of personal freedom with-
out which life loses its savor."

State socialism and inflation go
hand in hand.
It is high time that every Ameri-
can re-appraises the ultimate
price of the inevitable outcome:
Disaster for the nation and loss of
freedom for the individual.

GIRL SCOUT NEWS

Girl Scout Troop 8 held their regular meeting on November 1. The meeting was called to order by Mrs. Moshier. Patty Thompson took roll call and Nancy Hilton read the minutes of the last meeting.

The scouts talked over making Christmas gifts for their mothers. The tenderfoot scouts, just up from the Brownies, learned the scout handshake and salute. The troop members pledged to the Scout Flag and the meeting was adjourned.

Nancy Hilton, Scribe.

CARD OF THANKS

We are sincerely grateful to folks for all the happiness that they crowded into the days that our sister, Odie, was a patient at Mercy Hospital. There were those who gave her care, visited her, sent cards, letters, flowers and gifts. And then at her passing for the many, many kindnesses and beautiful expressions of sympathy of friends.

Nola and Wilfred Laurant, Curry Sheehy, Alma and Reginald Sheehy and children.

CARD OF THANKS

We are sincerely grateful to friends and neighbors for their many kind acts of sympathy during our sad bereavement. Our appreciation cannot be adequately expressed.

The family of Truman Ingram.

ITS QUIET WHISPERS QUALITY

It's the quiet of new super-fitted pistons, now "hushed" timing gear, now fan designed for better cooling at slower quieter speeds. And what power! There's a full 100 horsepower wrapped up in this V-8 design that makes you master of any road. It delivers more power than any other car anywhere near Ford's low price and sells for less than most conventional "sixes." And Ford offers a Six, too—an advanced Six with 95 horsepower.

NEW "HUSHED" RIDE

Ford's famous "Hush" Ride is now so quiet you can talk in whisper while traveling at highway speeds. "Hydra-Coll" (with the "Flex" Springs) that it virtually erases every bump.

NEW QUALITY FEATURES

Now quality is easy to find in this 50-way-new Ford. You find it in the new push-button door handles, in the new vinyl-upholstered seats, in the new leather touch to open, yet closes so securely, you find it in new sparkling upholstery colors.

NEW DRIVING COMFORT

Not only does the 1950 Ford offer you more hip and shoulder room than any other car in its field—it offers you the long-riding, driving comfort of a new foam rubber front seat cushion and new non-sag seat springs. Arrive relaxed after hours of riding.

But see it for yourself. Drive it so you can feel and hear the difference. And price it and see how much more the cost than any other really fine car.
